

Your customers want to make one thing clear.  
Their pond and fountain feature.

You want customers to come back year after year because the products you offer get the results they want: Clear, beautiful, odor, and algae-free ponds, water features, pondless waterfalls, ecosystem ponds, water gardens, and fountains for office, home, or hospitals.

Bio S.I. scientifically-tested Water Doctor naturally Rebuilds, Restores, and Renews the water systems in all home, office, and garden water applications through its blend of naturally occurring microbes that drastically reduce the amounts of nitrogen, phosphorus, ammonia compounds, and odors while being safe for humans, animals, fish, and aquatic plant life.

Bio S.I.'s safe and effective liquid Water Doctor preventative treatment will become part of every successful pond program because it is easy to use, child and animal safe, and is 'clearly' the best!

## One Size Does Not Fit All!

Bio S.I. products come in a variety of sizes to meet your customers' needs.

Pint

Quart

1 Gallon

# Product Usage

**For use on:** Ponds, fountains, exterior, and interior water features. Water Doctor is not a algacide, but rather a completely natural and ecologically harmless method of using microbes to control nitrate, phosphates, organic bottom sludge, and odors that commonly plague lakes, ponds, and water features.

**Application Usage:** 1 quart of Water Doctor will treat 1000 gallons of water. Good for regular treatments during the Spring, Summer and early Fall.

## We Work With You!

Bio S.I. supports their brands through national radio and print advertising and educational media placements to drive them into stores and POP and informative store displays to increase sales.

**Choose Bio S.I. Water Doctor for as a regular treatment during the spring, summer, and early fall season for:**

- Clarified lake or pond water
- Breaking down organic matter in the water
- Removed nitrogen and phosphorous compounds from pond water
- Reduced accumulated organic bottom sludge
- Improved aquatic environment for fish and wildlife
- Reduced ammonia and organic odors
- Added beneficial microbes

**Bio S.I. is a water inoculant with a broad and diverse spectrum of naturally occurring beneficial microbes and enzymes for rebuilding the pond.**
